

Folie and Glamour: it's seduction time

FOLIE - Light is the true star when we talk about **Folie**: precious and dazzling, with bright, glossy reflections. In fact it becomes a multifaceted mirror with infinite subtle multicoloured reflections. **Folie** is available in many unique variants, from extreme deep femininity through to hot, joyful and sunny, to the beautiful metallic colours and minerals such as; bronze, gold, steel and copper.

Soft to the touch and extremely comfortable, **Folie** is an exceptionally fine fabric which at the same time is more efficient: light and thin protecting the wearer from UV rays (UPF 50+). The spectacular iridescent chrome effects, combined with the innovative technical fabric make **Folie** very versatile: ideal for beachwear, precious and shiny for clothing that can give a touch of glamour and also be capable of bringing a touch of style to sportswear.

Composition: 89% Polyamide - 11% Elastane
Weight: 145 g/m²

GLAMOUR - A Jersey Lomellina fabric, which confirms its successful position, returns with a new and updated range of colours representing all of the latest trends. Assured excellent breathability, quick drying, protects from UV rays (UPF 50 +), offers a perfect fit and absolute comfort and thanks to a special and innovative **Glamour** treatment, has high anti-stain properties. Even after many washes, it guarantees the preservation of its original shape and conservation of its vivid colours.

Glamour combines light weight with a shiny silkiness and delicate metallic effects, extremely thin and ultra flat. The reflective surface enhances the femininity and sensuality of the garment. It surprises you with its futuristic vintage allure, ideal for creating minimal long and beautiful clothes. Its enchanting iridescence, combined with strong flashes of colour, make it a real cult of seduction and elegance without age. With **Glamour**, Jersey Lomellina confirms its ability to combine quality, ideas and innovative technologies in order to deliver a fabric that is suitable for both casual wear and high fashion wear, as well as for continuous style whatever the trends ... even on the beach.
