

Gold: light on the skin

Jersey Lomellina presents the latest fabric in its 2011 collection, the result of constant research by JL's laboratories: ultra-light and ultra-flat, **Gold** amazes with glossy, brilliant effects. Like a feather on the skin, it provides perfect fit, optimal breathability and maximum comfort. Exquisite plays of light make **Gold** ideal for young, sophisticated underwear, perfect for the creation of elegant, refined lingerie and for glamorous, fashionable doubled beachwear.

Extremely versatile and easy-care, it protects from UV rays (it carries the UPF 50+mark), is stain-proof and quick drying, leaving the skin naturally fresh and soft.

Gold is synonymous with elegance and reliability, refined innovation and excellent quality.

Composition: 85% polyamide 15% elastane

Weight: 90 g/m²
