

WONDER: a step ahead!

The cutting edge beachwear and sportswear fabric with Xtra Life LYCRA® fiber for added value!

Best selling fabric of the Jersey Lomellina collection, **Wonder** becomes now even more technologically advanced, with a new appeal for consumers.

Thanks to use of Xtra Life LYCRA®, Jersey Lomellina is able to highlight every aspect of this Wonderful fabric: superior shape retention and perfect fit, excellent resistance to chlorine – up to ten times longer than ordinary elastane - high protection against UV rays, resistance to the unsaturated fatty acids contained in suntan lotions.

Wonder by Jersey Lomellina is an eclectic and versatile fabric that fulfils many different needs: perfect for more sophisticated and trendy beachwear, conquering the world of sportswear with its gritty and dynamic characteristics, it is well toned and agile in fitness, fresh and young in the every day underwear. The structure of the fabric allows the natural evaporation of sweat; the fabric dries quickly maintaining a constant body temperature.

Furthermore, **Wonder** satisfies all the requisites for the LYCRA® Sport programme: it guarantees perfect fit, by delivering stretch and recovery power designed to help athletes move and perform at their best.

The renewed and updated complete range of colours now consists of almost forty new tones in line with the latest trends. **Wonder** is in fact, the right blend of fashion and technology: meeting the needs of the market in terms of style and trend, whilst not ignoring high performance and exceptional durability.

Composition: 80% Polyamide - 20% Elastane
